

# BLENDED VET

*Blended Learning creation in VET trainings*

## How can you create a blended course in VET?

Blended learning is not only up and coming since the outbreak of Covid-19. Blended learning is a mixture of presence and online learning and has many advantages for students and teachers. But how can you transform your lessons into a blended learning style?

We want to support VET teachers with this transformation of existing trainings into blended learning or with the creation of blended learning trainings. To achieve this, we will develop different products between 2020 and 2022. The products are:

- A Collection and research of blended learning best practices and methods
- A Learning package for blended learning curricular creation
- A Blended learning training program model
- A Learning platform

### The Project

We are a partnership of organisations from France, Italy, Lithuania, Norway and Germany. At the end of 2020, we started with the Erasmus+ project Blended Learning creation in VET trainings (short: BlendedVET).

Co-funded by the  
Erasmus+ Programme  
of the European Union

The European Commission's support for the production of this publication does not constitute an endorsement of the contents, which reflect the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

## What we did so far

The first big steps are already behind us. We managed to have our kick-off meeting online in October. Unfortunately, we could not meet in person up to now (but we are looking forward to make up for that and meet each other soon). Nevertheless, we achieved to implement and finish our first product, the collection and research of blended learning best practices as well as tools and methods for blended learning. Our platform is also already alive and the collection can be seen and downloaded there in the partner languages and English (soon).

## Next steps

Next steps: All partners work on our learning package at the moment that will be finalized the next months. We keep you updated about our progress.

Check our website to get the latest information: <https://blendedvet.eu/>

## Who we are

We re Osengo from Clermont-Ferrand, France, the Coordinator of the project and we believe that Blende Learning will enhance our Vet trainings in a positive way ! . Get to know us: <https://europe.osengo.fr/>

We are JSC "EU Trade" from Vilnius, Lithuania, and we and we believe in continuous professional and personal growth of individuals and evolution of teaching and learning by implementation of the new ways/technologies in order to make the learning more effective and blended learning is an important part of it. Get to know us: [www.eu-trade.lt](http://www.eu-trade.lt).

We are FØNIX from Sandefjord, Norway, and we believe Bleded Learning compliments classroom learning in an excellent way. Get to know us: [www.fonix.as](http://www.fonix.as)

We are Euroform RFS from Rende, Italy, and we believe in the importance of innovation in teaching methodologies and in the added value of blended learning. Get to know us: [www.euroformrfs.it](http://www.euroformrfs.it)

We are Wisamar Educational Institute from Leipzig, Germany, and we think Blended Learning can be a pillar of the future of education. Get to know us: [en.wisamar.de](http://en.wisamar.de)
